methods from a thread I am learning concurrency in  
Java using JBehave. I am using Java.net as a reference  
for this. When I get to the following scenario I am  
having difficulty understanding the behaviour. I have  
a scenario where I have to choose a String before I  
can continue and I have to do this from another  
thread. I have a bean that is initialized with the  
default String inside a JBehave tag. Here is the tag: <
