Anatomy Video Lectures.Q: Importing an array from mysql to php I have the following problem, I'm fetching some data from a Mysql table with json_encode and json_decode, but now I need to import an array from this json string to a PHP file. I have tried with following code: //get json data $jsonData = json_decode($_POST['data']); //import foreach($jsonData as $key => $value){ $value = str_replace(array('[',']','&'),'',$value); $vars['results'][] = array('i'=>$key, 'j'=>$value); } But instead of getting an array from the json data, its just converting it to a string or so. How can I get the array from the json and import this? Thanks in advance! A: Make your last line a foreach: foreach($jsonData as $key => $value){ $vars['results'][$key] = array('i'=>$key, 'j'=>$value); }
